EPPS'S COCOA.
BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—See article in the *Civil Service Gazette*.

MOODY AND SANKEY.

AMERICAN ORGANS in every variety of
CRAMER'S Manufacture and on **CRAMER'S**
Three Years System.

Prices from 15 Guineas, or £1 11s. 6d. a Quarter.

CRAMER and Co. by no means wish it to be understood, as in some quarters it would seem to have been, that their **AMERICAN ORGANS** are used by Messrs. Moody and Sankey at their interesting meetings.

CRAMER'S instruments are much more solid in manufacture, and infinitely superior in quality of tone, and are certainly not open to the objection made by perhaps the most influential literary and musical journal to the imported organs:—

"Judged from the artistic point of view, the instrument is no more agreeable to the ear than is the stentorian power displayed by the singer."

Moreover, while CRAMER'S **AMERICAN ORGANS** are more satisfactorily made, and better finished in all respects, they are sold at prices varying from 15 to 25 per cent. below those of all imported instruments.

These, and all other instruments of CRAMER'S manufacture, can be had on the three years system, which, originated by CRAMER'S, has been partially adopted by other firms, but is carried out on a thoroughly large and liberal scale only by themselves.

The contours or curves of equal altitude and depression, that have been chosen for exhibiting upon this Map the Orography of the British Isles and of the adjacent sea-beds, start from the main level of the sea as a datum, and rise on the landward side to heights of 50, 500, 2,000, and lastly above 2,000 feet, and sink on the seaward side to depths of 100, 250, 500, 2,000, and 5,000 feet, and lastly to depths below 5,000 feet. Each of the intervals on land is marked by a different colour; tints of green being chosen for lowlands, and brown and pink for highlands and mountains; the sea is coloured blue, the colour increasing in intensity as the sea increases in depth. Amongst other interesting matters brought vividly to view is the relative proportion of cultivable lands in the Three Kingdoms. In one corner of the Map a Diagram of the British Isles is introduced, coloured in zones, to show the annual rainfall; the increasing rainfall being indicated by deepening tints of colour.

THE BALLAD LITERATURE AND POPULAR MUSIC OF THE OLDEN TIME :

A COLLECTION OF THE OLD SONGS, BALLADS, AND DANCE TUNES WHICH CONSTITUTE THE NATIONAL MUSIC OF ENGLAND; ARRANGED CHRONOLOGICALLY, WITH REMARKS AND ANECDOTES, AND PRECEDED BY SKETCHES OF THE EARLY STATE OF MUSIC, AND OF THE AMUSEMENTS ASSOCIATED WITH IT IN ENGLAND DURING THE VARIOUS REIGNS.

By W. CHAPPELL, F.S.A.

The present Work, indispensable to all who are interested in the Popular Literature of England, is the result of many years' careful research among MSS., Black-Letter Books, and the numerous ephemeral Publications of the Sixteenth, Seventeenth, and the early part of the Eighteenth Century. The various Ballad collections, such as the Pepys, the Roxburghe, the Bagford, the Douce, the Rawlinson, &c., have been laid under contribution; whilst the Garlands collected by Pepys, Ashmole, Wood, Luttrell, &c., have furnished considerable matter in illustration of the subject. The old Dramatists have been carefully gleaned for notices of Old Songs and Ballads, and every available source likely to enrich the Work has been examined and quoted. Thus, the book is not a mere collection of Old English Tunes, but an account, Popular and Literary, of hundreds of our Old Ballads; in many cases giving entire Ballads for the first time in an accessible shape. The Two Volumes contain upwards of Eight Hundred Pages, with Facsimiles from old MSS. and Printed Books.
